SKILLS

- Azure, AWS, VPSX, PowerShell, Python, Java, SQL, Git, ServiceNow, Jira, TCP/IP, DNS, DHCP
- Splunk, Snort, Wireshark, Metasploit, pfSense, Nmap, MISP, Windows, MacOS, Linux, VirtualBox

WORK EXPERIENCE

Xerox: *IT Operations Specialist – Healthcare Systems*

03/2025 – Present

- Served as the primary on-site IT operations contact for clinical departments across multiple healthcare facilities, supporting hundreds of caregivers and mission-critical workflows with a focus on uptime, reliability, and continuity of patient care.
- Delivered onsite Tier 2 desktop and device support, resolving the majority of incidents on first visit and acting as escalation for complex endpoint, printer, and workflow-blocking issues in a high-availability healthcare environment.
- Supported Windows endpoints, enterprise print fleets, and secure clinical workflows, consistently restoring service within SLA targets and reducing repeat incidents through corrective configuration and end-user guidance.
- Owned end-to-end incident resolution for managed print and related clinical systems, performing root-cause analysis and coordinating with IS teams, Epic application support, install teams, and vendor partners, resulting in measurable reductions in recurring print failures.
- Acted as a technical liaison between caregivers and IT stakeholders, translating clinical needs into actionable technical findings that improved communication efficiency and shortened issue resolution cycles.

Insightful Inc: *Software Engineer*

09/2024 – 08/2025

- Headed the development and maintenance of cutting-edge iOS applications, resulting in an increase in user engagement and a 25% improvement in app performance.
- Architected scalable software architectures, integrating Firebase and Cloud Firestore, which reduced data retrieval times by 40% and improved app stability by 20%.
- Reduced individual coding time per feature from five hours to just under four hours by leveraging automation tools, enabling faster iteration cycles without compromising quality or performance standards within team projects.
- Enhanced app performance and scalability by implementing NoSQL databases like Realm, leading to a 35% reduction in app load times and a 20% increase in user retention.
- Fostered collaboration with cross-functional teams, including front-end developers using React.js, contributing to a 45% increase in user satisfaction scores by integrating seamless social media features and responsive UI/UX designs.
- Adhered to Object-Oriented Programming (OOP) principles, ensuring clean, maintainable code that reduced technical debt by 25% and improved code review efficiency by 30%.

FYI: *Lead Software QA Engineer Intern*

05/2024 – 09/2024

- Championed code reviews and contributed to the refinement of QA processes, instilling a culture of quality and precision within the development team.
- Streamlined bug tracking and reporting processes, leveraging detailed metrics and root cause analysis to enhance resolution efficiency, driving a 25% increase in team productivity.
- Conceptualized the execution of comprehensive software testing procedures, identifying and documenting over 200 critical bugs using Jira, resulting in a 30% increase in overall software quality.

- Orchestrated cross-functional collaboration to perform rigorous regression testing and validate fixes, ensuring flawless integration and timely delivery of software updates
- Engineered and optimized automated test scripts in Xcode and Android Studio, slashing manual testing time by 50% and boosting test coverage by 37%.

Selvawen Communications LLC: Computer Technician	08/2020 – 04/2024
• Diagnosed and resolved hardware and software issues for clients, achieving a 95% customer satisfaction rate. • Installed and configured operating systems, applications, and drivers on desktops and laptops, averaging 10 installations weekly. • Solved an average of 20 technical support tickets weekly through effective communication via phone, email, and in-person interactions; achieved a commendable resolution rate of 90%, enhancing overall customer satisfaction. • Developed and delivered training sessions on software applications to end-users, enabling increased self-sufficiency in troubleshooting minor issues, resulting in a significant reduction of IT support requests by 32%.	

EDUCATION

Georgia Institute of Technology Atlanta, GA	01/2025 – <i>Present</i>
<i>M.S. Computer Science</i>	
Western Governors University Salt Lake City, UT	08/2020 – 12/2024
<i>B.S. Computer Science</i>	

CERTIFICATIONS

Splunk - Splunk Core Certified User	Issued 10/2025
Security Blue Team - Blue Team Level 1 (BTL1)	Issued: 10/2025
CompTIA Network+	Issued 06/2025
CompTIA Security+	Issued 02/2025
ISC2 – Certified in Cybersecurity (CC)	Issued: 02/2025
